

OUR PURPOSE

Our user-friendly interface is geared towards those who are focused on fitness and want to improve their overall outdoor experiences. We work to give users the ability to search, upload information, and track their personal progress on a variety of hiking, biking, and climbing trails within their area. Unlike other platforms, we give users the ability to track their progress and note their accomplishments through their account, ultimately giving the most personalized experience.

HOW WE PERFORM

Our database server can handle multiple simultaneous requests without experiencing runtime errors.

Our database server is able to process requests in the order that they arrive.

Our database server can process requests in as little time as possible so that the system doesn't experience interruptions.

Our database server maintains stability while multiple users access the server at the same time.

MOUNTAIN GOAT

A GUIDE AT YOUR FINGERTIPS

MAKE IT YOURS

We give users the option to seek trails based on location, difficulty, and type. Additionally, they will have the choice to upload trails that are not currently in our database. Our users have the option to use a functionally limited version of our program right out of the gate or can opt to personalize their experience with a user profile.

“THE SUMMIT IS WHAT DRIVES
US, BUT THE CLIMB ITSELF IS
WHAT MATTERS”
- CONRAD ANKER

Whether you're looking to keep track of your accomplishments, or simply find the best trails in your area, MOUNTAIN GOAT offers a variety of features to meet your needs.

WHAT WE DO BEST

- Providing an intuitive and personalized user-interface
- Maintaining a built-in database of trails that allows for easy searching, sorting, and filtering.
- Chat functionality, allowing for comments to be shared between user profiles.
- Accessibility, our users can enjoy our program from home and on the move.
- Trail logging for users who discover a trail which has not yet been added to our system.
- Progress mapping so that users can stay on top of their fitness goals.

KEY CLIENTS

- Fitness Enthusiasts
- Novice Climbers, Hikers, and Bikers.
- Experienced Climbers, Hikers, and Bikers.
- Tourists
